SWIFT chair

ref: AD831

The SWIFT shower chair is stable on any floor. Designed in Sweden by A&E design AB in close collaboration with occupational therapy professionals and users, its modular design makes SWIFT exactly what you need, from a complete shower chair to a stool with or without arms, depending on the user's needs and how those needs change.

AyudasDinámicas®

Productos para una mayor independencia

Etac Swift shower chair, designed with functionality and simplicity in mind.

Swift is an award-winning series of shower chairs and stools designed with functionality and simplicity in mind.

Stable on any floor

The Etac Swift has a unique design that adapts to uneven floors thanks to its flexible seat. The soft, high-quality feet conform to the floor and ensure a secure grip. All these features contribute to user safety.

3-IN-1

The SWIFT chair's backrest and armrests can be removed without tools.

Swift adapts to different needs and is easily height-adjustable with its telescopic legs. The front can be lowered slightly for a gently forward-leaning seat, making it easier to stand up.
